FREEWITING

Lately I have been seeing a lot of memes in 9gag about the new airport that the presidential inaugurated in the capital city of Mexico. Everybody is talking about it right now. It so boring for me, no matter what happens the Mexico politicians are always going to act very dumb. And the real public opinion about the actual government is never actually heard because on internet the ones that give and give AND GIVE their opinion are just people that are related to the same politic parties.

The past elections were the most important in my country because the actual president won the half of the total votes. Everyone was impressed because it doesn't happen quite often. But the funny part is that all ended up being the same. No matter who has the actual power to improve Mexico, they will end doing the same things. And the economy gets and get worse every day. THE KILO OF TORTILLAS IS 30 PESOS IN SOME STATES OF MEXICO. I hope that the next elections thing will be different. But everybody knows that the hope is what dies at the end.
