

2123  
Predictions

# People

In the future we will be able to install bionic prostheses to improve memory and always have access to it

# Communication

Within 100 years we will have communication devices so small that they will be implanted in the palm of our hand and we will be able to carry out all the activities that we already do.

# Language

In 100 years 90% of people will know at least three languages to communicate in the world and Mars

# Deliveries

In the future we will take advantage of teleportation to send things through screens like in the movie Charlie and the chocolate factory.

# Transportation

In the future, vacations will not be on the planet but will be to visit Mars, the moon or take a cruise through the universe.

# Media

The separation of classes and races from the habitable planets in the known universe will lead to the creation of extremely violent reality shows.

# Traffic

In the future nobody will have the need to drive again because artificial intelligences will drive away the traffic problem, so you can play Tekken while on your way to work

# Traffic

Thanks to the invention of teleportation, traffic will be a thing of the past. But the cost of going through hell and warp power will be too expensive because of the human sacrifices in the name of Emperor.

# Media

In the future, everyone will enter Oasis to be entertained, watch movies, take photos and broadcast live.

# Transportation

The upper social classes will have the ability to travel anywhere on earth in seconds but the working class will continue to buy Teslas from Elon Musk.

# Deliveries

In the future, all purchases will be delivered by drones or small delivery robots. They will have defense systems against thieves and pigeons to ensure that your order reaches your home

# Language

In 2123 the lower minds will have overpopulated the earth thanks to the lack of natural predators and the inability to continue natural selection, this leaves the lower minds with little ability to understand only English.

# Communication

Communication in the future will have an evolution instead of communicating through a device our communication will be telepathically sending messages, memes and receiving the message of an Arab prince who wants to inherit his fortune.

# People

People height will be more than two meters thanks to the overexploitation of Helium-3 on the moon and the sudden destruction of it. All happened in the war events with the citizens of Mars and its emperor Elon Musk.
